

OLIMATHI P

Artificial Intelligence & Data Science Student

+91-8778311755 | olimathi13oon@gmail.com | Salem, Tamil Nadu | linkedin.com/in/olimathi-p

CAREER OBJECTIVE

Motivated Artificial Intelligence and Data Science student passionate about LLM learning and AI-driven applications. Eager to leverage foundational engineering principles, technical workflows, and analytical systems to design and optimize advanced, scalable artificial intelligence architectures.

EDUCATION

R P Sarathy Institute of Technology	2023 – 2027
B.Tech in Artificial Intelligence and Data Science GPA: 7.78	
Fathima Girls Higher Secondary School	2021 – 2023
Higher Secondary Certificate (HSC) Aggregate: 71.8%	

TECHNICAL SKILLS

Languages: Python, Java, SQL (Intermediate level)

Web Stack & Frameworks: HTML, CSS

Theoretical Knowledge: Large Language Models (LLMs), Prompt Design Architecture

PROJECTS

Personal AI Chatbot with Memory

Developed a personalized AI chatbot with persistent memory that stores and retrieves previous conversations to provide context-aware and personalized responses. Implemented conversation history management, memory retrieval mechanisms, and LLM-powered natural language interactions to create a more human-like and adaptive user experience. Designed the system using Python, FastAPI, and database-backed storage for efficient long-term memory management.

Technologies: Python, FastAPI, SQLite/PostgreSQL, LLM APIs (Gemini/OpenAI), NLP, REST APIs.

INTERNSHIPS

Odugaa Tech Artificial Intelligence Intern

- Assisted in setting up fine-tuning benchmarks and parsing structural data flows for large-scale natural language processing.
- Collaborated in debugging and optimization processes across proprietary deep learning and automated test pipelines.

Novitech UI/UX Design Intern

- Designed professional wireframes, modern user journeys, and responsive web component prototypes to heighten digital efficiency.
- Evaluated interface layout mechanics to streamline interactive functional flows for modern client applications.

CERTIFICATIONS

- Artificial Intelligence Fundamentals – Infosys Springboard
- Fundamentals of Python Programming – Imagecon Academy

ACHIEVEMENTS

- Second Prize: Achieved runner-up distinction in the Prototype Event at the Frolic 2025 National Symposium.
- Business Quiz: Qualified and participated in the corporate Business Quiz at Frolic 2025.
- Technical Credentials: Acquired credentialed certification validating expertise across basic and advanced Python principles.

LEADERSHIP SKILLS

- Team Coordination: Skilled at steering cross-functional peer workflows to hit target project metrics.
- Decision Making: Proven analytical mindset for assessing complex operational paths under short timelines.
- Adaptability & Learning: Fast, self-driven learning ability to dynamically adjust to changing tech stacks.

SOFT SKILLS

Problem Solving, Strategic Communication, Interpersonal Team Collaboration, Advanced Analytical Thinking, Practical Creativity

LANGUAGES & INTERESTS

Languages Spoken: English, Tamil

Interests & Focus Fields: Artificial Intelligence, Data Analytics, Strategic UI/UX Design, Modern Web Development
